INTRODUCTION DE'LONGHI COFFEE COLLECTION

OVERVIEW

The De'Longhi range of Fully Automatic Coffee Machines is designed to satisfy even the most discerning coffee lovers. With a wide range of customised features, De'Longhi is renowned for its innovative 'Just one finger' technology and attention to performance and design. De'Longhi machines have in-built grinders and infusers, which calculate the optimum quantity of ground coffee, water and pressure to ensure the perfect cup, every time.

COMMON FEATURES

JUST ONE FINGER TECHNOLOGY

This ensures a barista-quality cup of coffee is only a single push of a button away, every time.

DURABLE STAINLESS STEEL THERMOBLOCK

De'Longhi's patented thermoblock ensures the perfect water temperature is delivered from the very first cup of coffee.

INSTANT FROTHING DEVICE (IFD)

IFD technology delivers rich creamy froth automatically created from the detachable milk jug which can be stored in the fridge.

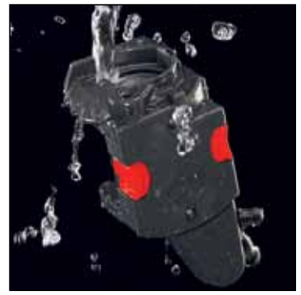
SELF-CLEANING FUNCTION

An automatic rinsing cycle activates when the machine is switched on or off. This, combined with the pre-programmed decalcification function, ensures every cup tastes just the way you like it.

OTHER FEATURES

AUTOMATIC CAPPUCCINO SYSTEM

QUIET GRINDER



REMOVABLE COMPACT BREWING UNIT

AUTO CLEAN FUNCTION

ENERGY SAVING

Chocolate Lover's Delight

Smooth, creamy and luxurious, hot chocolate is one of human history's much-loved indulgences. For many who have visited Italy during the colder months, cioccolata calda (or hot chocolate) is a favourite Italian treat.

Hot chocolate in Italy and many parts of Europe is thick, almost the consistency of pudding, and the way to enjoy it is with a small spoon, one delicious mouthful at a time.

Thick, luscious and velvety hot chocolate can easily be re-created at home with the PrimaDonna Exclusive Fully Automatic Coffee Machine.

CIOBAR

For best results, De'Longhi recommends using Cameo's *Ciobar* chocolate flavoured drink mix. Made with premium cocoa to create a rich and indulgent drinking experience, each pack contains five sachets (25g each) and is packaged to ensure ultimate freshness.

PRIMADONNA EXCLUSIVE

OVERVIEW

Experience the joy of having your own café at home. Espresso, cappuccino, café latté, frothed hot milk, hot chocolate, tea and infusions are all the possible creations with the PrimaDonna Exclusive. Equipped with De'Longhi's patented Instant Frothing Device (IFD), with the addition of thermal technology to keep the milk at an ideal temperature for longer, silky smooth and thick froth can be easily be achieved for your favourite hot milk drink.

FEATURES

- Easy-to-use colour display screen with multiple profile settings
- Just one finger operation to personalise your favourite coffee, milk and chocolate setting
- Dedicated jug for hot chocolate
- Thermal milk jug (Instant Frothing Device)
- Hot water/steam spout for manual frothing
- Removable water tank with 1.4 litre capacity
- Integrated precision coffee grinder with 13 adjustable grind settings
- 250g coffee bean capacity
- Descaling, cleaning and rinsing automatic programs for easy maintenance
- Removable drip tray with water level indicator
- Energy saving function

AT A GLANCE

CHOCOLATE FUNCTION

Add milk and powdered chocolate of your choice to the dedicated carafe and tailor to your preferred consistency for deliciously authentic Italian hot chocolate.

THERMAL MILK JUG

The new insulated carafe keeps milk at the ideal temperature, outside the fridge, for up to three hours. After use, it can be stored in the fridge.

ESAM6900M

PRIMADONNA

OVERVIEW

The PrimaDonna fully automatic coffee machine offers the convenience of barista style coffee in the comfort of your home. With De'Longhi's innovative Instant Frothing Device, it takes just one touch of a button to make then personalise your coffee settings so you get a perfect cappuccino, café latté or flat white every time.

FEATURES

- Just one finger operation to personalise your favourite coffee setting
- Choose between automatic cappuccino, café latté and flat white
- Patented IFD system (Instant Frothing Device)
- Hot water spout
- Pre-brew cycle for optimal extraction of flavours and crema

- Removable drip tray

AT A GLANCE

COMPACT FOOTPRINT

As its name suggests, the Piano Black Compact's unique space-saving design and integrated cappuccino system redefines the compact, fully automated coffee machine.

MANUAL FROTHING FUNCTION

The Piano Black Compact features an in-built swivel steam wand that allows you to manually froth milk as you prefer it.

ECAM23210B

MAGNIFICA

OVERVIEW

The Magnifica is a beautifully designed machine for those who really enjoy their coffee. It features ‘Compact, Reliable and Fresh’ technology by incorporating a tubeless system to guarantee the perfect cup of coffee at the ideal temperature. What’s more, the integrated cappuccino system makes a rich and creamy froth to consistently produce barista quality results for the coffee enthusiast.

FEATURES

- In built swivel steam wand for manual frothing
- Pre-brew cycle for optimal extraction of flavours and crema
- Easy to use removable water tank with 1.8 litre capacity
- Push button panel to personalise coffee settings
- High performance precision quiet grinder with 13 grind settings
- 200g coffee bean capacity
- Descaling, cleaning and rinsing automatic programs for easy maintenance
- Removable drip tray

AT A GLANCE

‘COMPACT, RELIABLE AND FRESH’ TECHNOLOGY

De’Longhi’s advanced ‘Compact, Reliable and Fresh’ tubeless system guarantees great tasting coffee – at the ideal temperature – with a perfect aroma.

INSTANT REHEAT

This special function heats the core of the machine, ensuring it’s always at the ideal temperature for espresso, no matter how long it’s been between cups.

ESAM03110S

MAGNIFICA S

OVERVIEW

Magnifica S is a concentrate of technical perfection and style. Featuring an in-built stainless steel steam wand for milk frothing to make cappuccinos and café lattés, coffee strength can easily be adjusted by turning the large dial on the front. Magnifica S also guarantees the best coffee aroma with its coffee bean container and aroma saving cap, to ensure your coffee beans always stay afresh.

FEATURES

- Push button panel to personalise coffee settings
- In-built swivel, stainless steel steam wand for manual frothing
- Pre-brew cycle for optimal extraction of flavours and crema
- Removable water tank with 1.8 litre capacity
- Integrated precision coffee grinder with 13 adjustable grind settings
- 250g coffee bean capacity
- Descaling, cleaning and rinsing automatic programs for easy maintenance

PUMP ESPRESSO CAPPUCCINO

OVERVIEW

This traditional pump coffee machine is designed for the home barista who seeks the best in technological performance without losing the traditional approach. Be free to choose between ground coffee and ‘Easy Serving Espresso’ pods, as well as have the option to explore your coffee art skills with manual frothing or have frothed milk delivered automatically in your cup using the Instant Frothing Device (IFD).

FEATURES

- Push button panel with illuminated flow stop buttons
- Choose between automatic espresso, cappuccino, café latté, hot milk and hot water for tea
- Professional filter holder for ground coffee and ‘Easy Serving Espresso’ pods
- Patented IFD system (Instant Frothing Device)
- Stainless steel steam wand for manual frothing
- Removable water tank with 1 litre capacity
- Removable drip tray with water level indicator
- Self-priming system ensures the coffee machine is always ready for use
- Energy saving function
- 15 bar pump pressure

AT A GLANCE

PATENTED AUTOMATIC CAPPUCCINO SYSTEM

De’Longhi’s patented Automatic Cappuccino system allows you, with the single touch of a button, to transform fresh milk in the IFD, into a thick and smooth froth for a perfect cappuccino, café latté or flat white.

PROFESSIONAL FILTER HOLDER

Make excellent espresso or a smooth cappuccino with the same motions typical of a barista, using the 500 gram professional brass filter holder. Designed to be used both with ground coffee or ‘Easy Serving Espresso’ pods.

EC860MPACK

ICONA

OVERVIEW

Aroma, flavour and beauty transpire from the advanced technology and flawless design of this stylish range. Easy to use and suitable for use with both ground coffee and ‘Easy Serving Espresso’ pods, the De’Longhi Icona manual coffee machine guarantees excellent results and perfectly encompasses the Italian passion for coffee.

FEATURES

- Unique high gloss finish with chromed details
- ‘Cappuccino system’ mixes steam, air and milk to produce a rich, creamy froth
- Use ground coffee (1 or 2 cups) or ‘Easy Serving Espresso’ pods
- Easy to use removable water tank with 1.4 litre capacity

NESPRESSO

INTRODUCTION DE'LONGHI *NESPRESSO* COFFEE COLLECTION

OVERVIEW

More than 25 years ago, *Nespresso* developed and patented an exclusive system for perfectly mastering the preparation process of the espresso, from the selection of the rarest coffee beans right through to the exquisite moment of tasting. *Nespresso* machines are designed to reveal flavour and aroma. The latest technology with great ease-of-use, and design has been acknowledged by numerous international awards.

COMMON FEATURES

REVOLUTIONARY CAPSULE SYSTEM

This is a unique extraction system which involves a three phase process. The first involves inserting the capsules into the front compartment. This is then followed by the automatic perforation of the capsule by three blades within the compartment. The final phase involves high pressure extraction producing an exquisite cup of coffee with a rich crema.

AAA SUSTAINABILITY

In 2003 *Nespresso* set out to create the first AAA grade coffees in the world by incorporating an additional A for sustainability to the AA for quality. AAA Sustainable Quality™ encapsulates *Nespresso's* quest to ensure their coffees are produced to the highest standards of quality balancing the creation of social and economic value for farmers and their communities, as well as contributing to the preservation of the environment.

NESCAFÉ Dolce Gusto

INTRODUCTION DE'LONGHI NESCAFÉ® DOLCE GUSTO® COFFEE COLLECTION

OVERVIEW

NESCAFÉ® Dolce Gusto® combines the expertise and history of NESCAFÉ® coffee making with the hallmarks of De'Longhi precision, engineering and technical perfection. Redefining your coffee experience, coffee enthusiasts can have the luxury and ease of brewing cafe-quality drinks from the conveniences of home.

COMMON FEATURES

QUALITY CAPSULES

True to the NESCAFÉ® tradition, only 100% Arabica beans are selected. The beans are of high quality and yield an intense and fragrant flavour. The airtight capsules optimise the extraction pressure for each flavour variety, delivering the best quality and no-hassle beverage.

15 BAR PRESSURE

Fifteen bars of pressure refers to the barometric pressure that builds up inside every capsule. The high pressure and capsule technology ensures an even distribution of water and pressure is delivered through the coffee to maximise the flavour extraction and produce a crema.

Thermo block

THERMOBLOCK TECHNOLOGY

The exclusive Thermoblock technology heats the water fresh every time, in less than a minute. No preheating required. Perfect water temperature is guaranteed from the very first cup.

HOT/COLD SELECTION LEVER

The NESCAFÉ® Dolce Gusto® system allows you to customise your favourite hot or cold beverage using the hot or cold water selector.

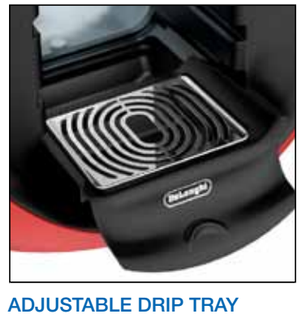
OTHER FEATURES

FLOW STOP FUNCTION

Customise your coffee strength with the automated flow stop feature. Scroll the selection wheel (from one to seven) to the desired water volume, press the button, and your milk or coffee is dispensed.

MAGNETIC CAPSULE HOLDER

REMOVABLE WATER TANK



ADJUSTABLE DRIP TRAY

STYLISH AND SLEEK DESIGN

HOW IT WORKS

STEP ONE → **STEP TWO** → **STEP THREE**

When you place a capsule in your NESCAFÉ® Dolce Gusto® coffee machine and pull down the lever, a small needle pierces the aroma seal and water races in at high pressure.

The water is then pushed through a perforate membrane, waking up the flavours and aromas in the roast and ground coffee.

Then, a plastic disc pokes through a layer of protective foil at the bottom of the capsule. This delivers the exact amount of pressure required for your chosen beverage into your cup.

CAPSULE VARIETIES

● – one capsule drink
●○ – two capsule drink

Available online and in store

CAPPUCCINO ●○

A shot of rich espresso topped with deliciously sweet frothy milk. Named after the Franciscan Minor friars, 'cappuccini' refers to their tradition of wearing hooded robes. The foam on a cappuccino retains the heat of the coffee below – just like a hood.

CAFFÉ AMERICANO ●

A morning cup of coffee with a smooth and deep flavour, this medium roast blend is sure to satisfy. Milder than a Lungo thanks to its light roast and its carefully selected roast and ground beans, Americano is enjoyed best in a large mug. With or without milk.

ESPRESSO RISTRETTO ●

A little shot of coffee heaven: shorter than an espresso, full bodied with a velvety crema layer. Also known as 'corto' (short), Ristretto is a very short espresso shot – it's our cheekiest coffee yet! With less water passed through the coffee, Ristrettos are bold, full-flavoured and the perfect 'pick-me-up' - morning, noon or night.

HOT CHOCOLATE ●○

A rich, velvety hot chocolate made from flavoursome cocoa beans. A devilishly smooth hot chocolate with the full flavour of specially selected cocoa beans and rounded off with delicate layer of frothy milk. If you're passionate about deliciously good chocolate, hot chocolate is the ultimate indulgence.

CIRCOLO™ AUTOMATIC

OVERVIEW

Winner of the 2010 International Forum Design's Product Design Award for its unique futuristic style, the NESCAFÉ® Dolce Gusto® Circolo™ Automatic not only looks sophisticated on the kitchen bench, but delivers great tasting coffee every time.

FEATURES

- Wheel interface to set the coffee length
- Prepares hot and cold beverages
- Easy introduction of capsules with stop safety device
- Custom control lever to personalise your coffee strength and mixture (for multi-capsule drinks)
- Flow stop function
- Blue LED cup illumination
- Easy to use removable water tank with 1.3 litre capacity
- Magnetic capsule holder
- External container for used capsules
- Adjustable drip tray
- Energy saving automatic stand-by mode after 20 minutes of no use

ACCESSORIES INCLUDED

- Sample pack of 12 capsules

AT A GLANCE

DOLCE GUSTO® CAPSULE SYSTEM

Fitted with a 15 bar pressure pump, Dolce Gusto®'s extraction system ensures the perfect hot or cold drink is delivered every time.

THE GREAT
ITALIAN CAFÉ
DVD

From Flower to Coffee Bean

A true gift of nature, coffee comes from a plant belonging to the genus Coffea, a member of the Rubiaceae family. There are different varieties of coffee beans, but the two main commercial bean types are Arabica and Robusta.

ARABICA COFFEE

Arabica coffee beans have a well-rounded, distinct aroma, smooth body and creamy taste.

ROBUSTA COFFEE

Robusta coffee beans have a stronger, more intense flavour with a full body and woody after-taste.

De’Longhi Coffee Blends

Being Italian, De’Longhi understands the culture, emotion and science behind any good coffee. Our coffee beans are imported from the best coffee-producing regions around the globe. Working with a local coffee craftsman with decades of experience, our beans are slow roasted daily in a wood-fired oven, ensuring the best and freshest coffee for your drinking enjoyment. Many compare the world of coffee to that of wine – an endlessly complex and intricate world of flavours, blends and techniques.

DECONN1KG DECONN500G

CONNOISSEUR

A high roasted blend of 100% quality Arabica beans for an authentic espresso with aromatic tones, velvety consistency and a full-bodied, intense after-taste. Comes in 1kg and 500g bags.

DEFAMILY1KG DEFAMILY500G

FAMILY VALUE

A skilful blend of 70% Arabica and 30% Robusta, delivers a good strength of coffee that is smooth and harmonious, yet sharp in flavour. Comes in 1kg and 500g bags.

DEDECAFF250G

DECAFFEINATED

Comprising of 100% Arabica, the coffee beans are Swiss water treated to gently remove the caffeine while maintaining the beans’ distinct characteristics, body and aroma. Comes in a 250g bag.

How to Store Coffee

DECC500

Once roasted, coffee beans must be stored in a cool, dry and dark place to preserve the fresh taste of the bean. Roasted coffee exposed to air, moisture, heat, and light goes stale far more quickly and adversely affects flavour profile. The key to rich, full-flavoured coffee is limiting the effects of these external forces through proper storage.

DE’LONGHI’S VACUUM COFFEE CANISTER is a battery-powered, motorised unit that can hold 500g of coffee. It works to fend off moisture, oxidation and acidity. Just place coffee beans inside, pull the handle shut, and watch it create an airtight fresh-guarding environment.

The Perfect Espresso

The espresso is at the heart of all coffee drinks and should have a 3 – 4mm thick, dark reddish-brown, velvety crema on the top. A perfect espresso is a serving of 30mL and should be enjoyable straight with no additives, yet bold enough to not disappear in milk. A pleasant and aromatic aftertaste should linger on the palate for several minutes after consumption.

Key Ingredients to the Perfect Espresso

Classic Espresso Recipes

ESPRESSO · STEAMED MILK · MILK FROTH · WATER

CAFÉ MACCHIATO

1 x 1 x

An espresso with a touch of milk. This delicious pick-me-up is often made with a spoonful or two of hot frothy milk.

LONG BLACK

2 x 1 x

A long black is made from two parts espresso coffee to one part hot water. The espresso is added after the hot water to preserve the fine crema on top.

CAPPUCCINO

1 x 1 x 1 x

A traditional Italian morning drink, cappuccino is made of equal parts espresso coffee, steamed milk and milk foam topped off with a fine dusting of cocoa. For a creamier drink, ask for a wet cappuccino (more steamed milk and less foam) and for a stronger coffee, a dry cappuccino (more milk foam than steamed milk) promises a more intense flavour.

FLAT WHITE

1 x 2 x

A popular Antipodean coffee drink, flat white is similar in composition to café latté with one part espresso coffee and two parts steamed milk - but without the milk foam.

CAFÉ LATTÉ

1 x 2 x 1 x

Literally meaning coffee and milk, café latté is traditionally only consumed at breakfast time in Italy. Made of one part espresso coffee, two parts steamed milk and half an inch of milk foam - this coffee is for those who prefer a milkier style.

Care and Maintenance

COFFEE CARE KIT

Model No. SER3012

Complete cleaning and maintenance kit for coffee machines.

Contents:
Entkalker Descaler, Milk Clean, IFD Care Oil, Microfibre Cloth, Brush, Spatula, Water hardness test, Cleaning and maintenance guide

Applicable Models:
All fully automatic coffee machines

ECODECALK

Model No. 5513291781

100% eco-friendly descaler. Reduces limescale build-up and improves the machine's performance.

500mL (4 uses)

Applicable Models:
All coffee machines

ENTKALKER DESCALER

Model No. NOKALK

Natural descaler that is anti-bacterial, non-corrosive and fully biodegradable.

2 single doses x 100mL

Applicable Models:
All coffee machines

WATER FILTER

Model No. SER3017

Removes some of the impurities from water to improve the taste and aroma of your coffee.

2 months' use

Applicable Models:
ECAM* series fully automatic coffee machines

MILK CLEAN

Model No. SER3013

Removes hardened milk deposits and degreases steam arms, IFDs and milk jugs.

250mL

Applicable Models:
All coffee machines

IFD CARE OIL

Model No. SER3014

A food-grade oil spray that is suitable for lubricating Instant Frothing Devices (IFDs).

100mL

Applicable Models:
All coffee machines with IFDs

Barista Essentials

FULLY AUTOMATIC COFFEE MACHINE INSTANT FROTHING DEVICES (IFDs)

Model No. ESAM6600JUG (For EABI6600 & ESAM6600), ESAM5500JUG (For ESAM5600), ECAMJUG (For ECAM* series)

Use the spare removable milk jug for those who prefer skim, soy or any type of milk. Whether you prefer espresso macchiato, cappuccino, flat white or any other coffee speciality, the preparation of creamy foam takes just a matter of seconds at the press of a button.

NESPRESSO COFFEE MACHINE INSTANT FROTHING DEVICES (IFDs)

Model No. LATTPREMJUG (For EN720M), LATTPLUSJUG (For EN520* series)

Use the spare removable milk jug for those who prefer skim, soy or any type of milk. Whether you prefer espresso macchiato, cappuccino, flat white or any other coffee speciality, the preparation of creamy foam takes just a matter of seconds at the press of a button.

STAINLESS STEEL MILK FROTHING JUGS

Model No. SSFJ10L (1L), SSFJ06L (600mL)

Let your inner barista out and explore your coffee art skills with manual frothing. Ideal for frothing, heating or serving milk and cream.

DUAL WALL THERMO GLASSES (SETS OF 2)

Model No. 5513214611 (220mL), 5513214601 (190mL), 5513214591 (60mL)

Can be used for espresso, coffee, tea and just about any drink, hot or cold. The dual wall design keeps hot drinks hot, while the glass remains cool to the touch.

PICARDIE GLASSES (SETS OF 6)

Model No. PICARDIE220 (220mL), PICARDIE90 (90mL)

Made of impact and chip-resistant tempered glass, these glasses are safe for hot as well as cold beverages. Microwave and dishwasher safe.

STAINLESS STEEL CHOCOLATE SHAKER

Model No. 5532125400

Made from high grade stainless steel, the removable lid and mesh top help finish off that perfect touch to your home café coffee or hot chocolate.

THE GREAT ITALIAN CAFÉ DVD

Model No. TGIC2007

The Great Italian Café is a six part series showcasing the history, culture and style of the world's coffee capital and the country that invented espresso.
